

Agreement to Personal Information Appearing in Branch Communications and Website.

With the general requirements of the General Data Protection Regulations (GDPR) in mind, the Committee consider that we must ask all Group Leaders for the specific agreement to have their contact details (telephone numbers and/or email addresses) given out in branch communications and website.

Would you therefore kindly sign and date as indicated below, signifying your agreement.

We would emphasise that publications are given only to paid-up members of our branch. They are not made available to members of the public who only enquire about joining.

This agreement does include our website but please note as this is open to the public, where possible only a Bluebird link is shown and not the actual email address. Only with the members specific permission will a telephone number be shown.

Karen Riley
Groups Co-ordinator
